The material I first catalogued consisted of things that were passed on to me by Joe Lomax and John Burke, who nurtured the Association in its early years. I added material where it seemed appropriate to do so, from my own resources, from material sent to me by Shrigley Old Boys, but principally, in regard to photographic content, from the Salesian Archive. I was allowed to scan all Shrigley Photographic albums in the Salesian Archive. For access, I am grateful to Fr Patrick Sherlock SDB, Provincial Secretary. A catalogue of Shrigley material held in the Salesian Archive at Thornleigh, prepared by Peter Roebuck, is attached to the Catalogue deposited with this material in the Cheshire Record Office.

Some of the individual items catalogued here may seem unimportant, even trivial, but in the context of the Association, to which many have contributed and continue to do so, the cumulative force of many small items helps to give greater meaning to the whole.

Mike Kilduff October 2011

## The Shrigley Association Archives

*All items in this file were found in early 2005 by Bro Donald MacDonald in a metal filing cabinet in the Salesian Archive (then) in Stockport. Some were loose, but most were in envelopes and they had at some time been sorted and listed on the front of the envelopes. However, over time, some photos had been removed, misplaced or taken out and not returned correctly. Some envelopes contained negatives which had also been scanned earlier. Copies of many of the photos are held elsewhere but all photographs found here were scanned to make this file a complete record of what was found in the filing cabinet.*
